

Taos - Menu - Planner Website

- Main page, visible on first access of site

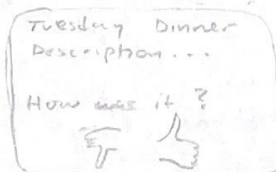

considering removing this
icon link to prep lists

icon link to recipes

- Simple, scrollable UI

Tapping on a meal allows you to rate it

↓ pop-up overlay

↑ rating options

if not logged in, goes to login page

displays something else if user logged in

dim background

not visible for non-admins

because of storage limitations,
I will probably skip profile pictures

Rough idea, implementation
will be slightly different.
